Karan Aggarwal

Hi!

ABOUT ME

Large blue speech bubble with horizontal lines for writing.

WHAT WOULD YOU NAME
YOUR AUTOBIOGRAPHY?

WHAT CHEERS
YOU UP?

Horizontal lines for writing.

Horizontal lines for writing.

What is your favorite activity and why?

If you had to create 3 apps, which ones would you create?

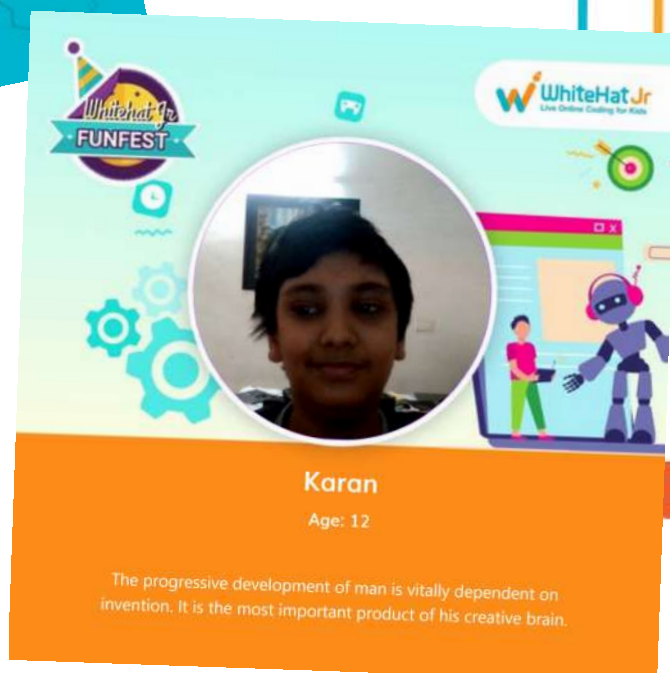

What's the bravest thing you've ever done?

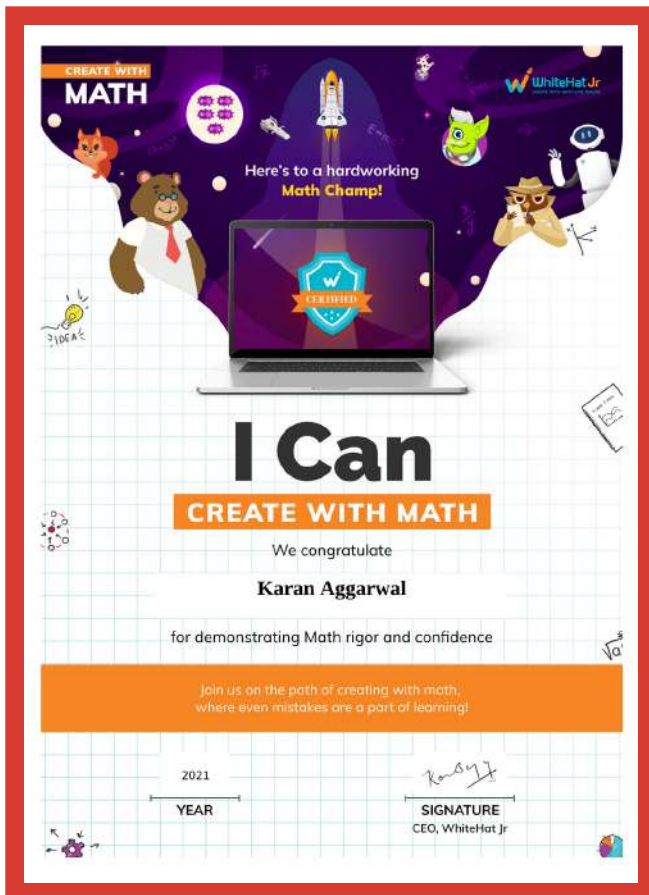

Funfest

Cards

[CERTIFICATES]

<BADGES/>

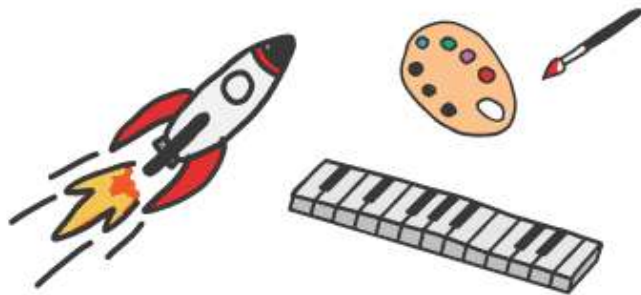

Hey BFF,
What's Your NAME?

BFFS ONLY!

(To be filled by your BFF)

WHAT'S YOUR
FAVORITE PASTIME?

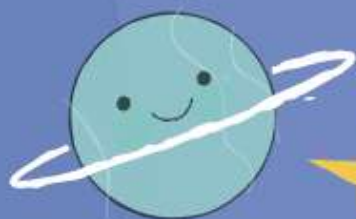

WHO DO YOU WANT
TO BE LIKE WHEN
YOU GROW UP?

NAME ONE ADVENTURE
YOU WOULD WANT
TO GO ON.

WHAT VIRTUAL GAME WOULD
YOU LIKE TO PLAY IN REAL LIFE?

IF YOU COULD MAKE APPS,
WHAT WOULD YOU MAKE?

About WhiteHat Jr

Our singular mission is to make kids creators of technology versus its passive consumers.

To make children future-ready, we have designed a proprietary 144-class curriculum. It caters to different school grades and age groups, to ensure an easy and fun learning experience. Our curriculum, projects and world stage events use coding as a base to help children build essential skills like logical thinking and creativity, and apply them to create real-world applications.

We've built a global and vibrant online student community, where thousands of kids across geographies such as India, USA, UK, Australia and more, share projects and learn from each other. Our 11k+ strong all-women teachers force delivers classes daily with an average rating of 4.8+ out of 5, as per our EY-tabulated dashboard. These metrics motivate us to create further meaningful impact in the world of digital learning.

Be Math Confident for Life!

Our interactive and path-breaking curriculum is designed to inspire children to understand the "WHY" behind Math. Students will discover that even the subject's toughest problems can be simplified by asking the right questions - making them Math Confident for Life!

Experience our activity-based curriculum that values depth of learning than getting the right answer. Your child discovers solutions for real-world challenges in our unique Math Playground. Worksheets and quizzes take this learning beyond the class.

Course Overview

- 80 Classes
- 11 Modules
- 4 Capstone Projects

66 Classes

Learn core
Math concepts

12 Capstone
Classes

Apply Math concepts
to solve real-world
problems

Karan Bajaj

Founder & CEO, WhiteHat Jr

A big thank you for being an important part of WhiteHat Jr!

I loved seeing your enthusiastic participation in the FunFest 2021.
Such passionate involvement from learners like you keeps us inspired!
Your creativity, energy and willingness to do new things will certainly place you
among the innovators in the future. My best wishes for your learning journey.

Remain curious & keep creating!
